Subject Index

Alan Gregg Lecture:

Some illnesses of mental health, Morison, 985

Allergy:

Place of in medical education, Swineford, 946

Anatomy:

Lecture response device used in teaching of, Bridgman, 132

And physical anthropolgy (*Communication*), Singer, 719

Study of the retention of knowledge (*Abstract*), Huber, 885

Use of videotape recordings in examinations in (*Abstract*), Markee *et al.*, 884

Association of American Medical Colleges:

Annual Awards (1964): Abraham Flexner Award to Ward Darley, Lewis, 979; Alan Gregg Lecturer—Robert S. Morison, Berson, 983; Borden Award to Harry Eagle, Spink, 1003; Ward Darley (*Editorial*), Cooper, 1049; Merit Awards on the Occasion of the 75th Annual Meeting to Samuel Sloan Colt, Devereux Colt Josephs, Paul Budd Magnuson, Lister Hill, and John Edward Fogarty, 1001

Committees of (1962-63), 642

Continuation Medical Education: Second Annual Conference, 573

Continuing Group on Student Affairs: Seventh Annual Meeting, 576

Institute (1963): First on Medical School Administration, 571; Proceedings of (Nov. Part II), 1-221

Institutional Membership Meetings: February 2, 561; June 17, 568; October 27 (special meeting), 579

Liaison Officers on International Activities, 973

Longitudinal Study: Hutchins, 265; Personal characteristics of students choosing different types of medical careers, Schumacher, 278

Medical School-Teaching Hospital Section: Sixth Annual Meeting, 574

Meeting (Annual) 1963: Abraham Flexner Award to Lowell T. Coggeshall, 587; Alan Gregg Lecturer, Willard C. Rappleye, 587; Borden Award to Klaus Heinrich Hofmann, 587; Business Meeting, 591; Foreign Guests, 587; Introduction of New Deans, 585; Introduction of New Provosts and Vice-Presidents, 586; Program, 586, 589

Members of (1962-63), 644

National Institutes of Health-Medical Schools Regional Meetings, 556

Officers of (1963-64), 641

Presidential Address: (1963) Deitrick, 1; (1964) Berson, 1061

President's Acceptance Message (1963), 638

Reports: of the Chairman of the Executive Council, 592; of the Committee on Animal Care, 624; of the Committee on Continuation Education, 625; of the Committee on Federal Health Programs, 626; of the Committee on International Relations in Medical Education and Division of International Medical Education, 616; of the Committee on Medical Communications, 628; of the Committee on Medical Education for National Defense, 630; of the Committee on Medical School-Affiliated Hospital Relationships, 634; of the Committee on Medical School-Veterans Administration Relationships, 635; of the Committee on Student Affairs, 635; of the Committee on the Study of New Drugs, 636; of the Committee on Research in Education and Division of Education, 611; of the Director, Division of Business Affairs, 600; of the Director, Division of Operational Studies, 604; of the Editor and Editorial Board of *The Journal of Medical Education*, 623; of the Executive Director, 594; of the Nominating Committee, 637; of the Secretary, 598; of the Treasurer, 599

Research in Medical Education: Proceedings of Second Annual Conference on (*Foreword*), Darley, 97; (*Editorial*), Sanazaro, 229; Program Committee, 99; Program, 639; Third Annual Conference on (*Announcement*), 226; Third Annual Conference on (*Announcement*), 422; Third Annual Conference on (*Announcement*), 522; Third Annual Conference — Abstracts, 875, Program, 873

Seminars on medical teaching, 1964 (*Announcements*), 227, 422, 522

Seminar on research in patient care: concepts and methods, 1048

Toward a new Association and new opportunities for leadership, Russell, 17

Biomedical Engineering:

Observations on (*Communication*), Gray, 413

Borden Award:

To Harry Eagle, Spink, 1003

Communications:

International transmission of medical learning via Telstar (*Editorial*), Ruhe, 409

Paperbacks in medical education (*New Books*), Spencer, 726

Teaching medical students and physicians to write, Zisowitz, 481

Television: Home and hospital viewing of continuing education broadcasts, Abbey *et al.*, 693; Use for laboratory experiments in physiology, Samson *et al.*, 780; Open circuit, continuation medical education by, McGuinness *et al.*, 735; Use of during the clinical years (*Abstract*), McDermott and Harrison, 889; Growing pains of a new teaching medium, Ramey, 1107

Administration: Application of current research in management to, Likert and Kahn (Nov. Part II), 90; As seen by 1963 Institute participants (Nov. Part II), 157; Business principles and medical school management, Heneman (Nov. Part II), 138; Coping with administrators' information overload, Miller (Nov. Part II), 47; Organization of as seen by 1963 Institute participants (Nov. Part II), 30; Proceedings of the 1963 Institute on: Objectives of the 1963 Institute Report (Nov. Part II), x; (*Preface*) Dietrick (Nov. Part II), v; Introduction to the 1963 Institute, Some introductory observations on faculty organization, Magoun (Nov. Part II), 57; General faculty organization as seen by Institute participants (Nov. Part II), 61; Business and fiscal management as seen by Institute participants (Nov. Part II), 117; Supporting services and plant management as seen by Institute participants (Nov. Part II), 157; (*Epilogue*), Bucher (Nov. Part II), 169; Organization of the 1963 Institute (Nov. Part II), 173; Roster of participants (Nov. Part II), 176; Supplementary background material, Miller (Nov. Part II), 182; Bibliography (Nov. Part II), 210; Role of the dean (*Editorial*), Cooper, 81

Admissions: Applicant data for 1963-64 entrants (*Datagram*), 974; Applicant study: 1963-64, Johnson, 899; Application trends for classes entering 1954-1964 (*Datagram*), 232; Background data of significance to medical student performance (*Abstract*), Motto, 891; The Davis Reading Test, Hr scale, MCAT and undergraduate grades as predictors of success in medical school (*Abstract*), McGuire and Scott, 886; Sophisticated faking on the Strong Vocational Interest Blank (*Abstract*), Palubinskas, 887; Students select a medical school (*Abstract*), Aronson *et al.*, 885

Cooperative agreement between the West Virginia University School of Medicine and the Medical College of Virginia (*Communication*), Van Liere, 1051

Evolution of the medical university, Stead, 368

Expenditures for 26 private and 16 public schools from three main categories of income of, 1941-1962 (*Datagram*), 724

The FDA and the academic community (*Editorial*), Cooper, 407

Facilities: Ambulatory service in the teaching hospital, Weinerman and Steiger, 1020; (*Editorial*), Harrell, 791; Bookstores (*Editorial*), Leake, 1119; Form of the teaching hospital, Harrell, 1005; Multidiscipline student laboratories, University of Southern California, Lee and Bamberger, 846; Physical, for new medical schools, (*Editorial*), Leake, 647

Financing of: As seen by 1963 Institute participants (Nov. Part II), 157; Changes in relative importance of sources of income for basic operations of, 1941 to 1962 (*Datagram*), 423; Competition for support, Moore (Nov. Part II), 151; Essentials of fiscal management, Pierpont (Nov. Part II), 109; Fiscal and business management as seen by 1963 Institute participants (Nov. Part II), 117; Health Professions Educational Assistance Act of 1963 and construction of medical facilities (*Datagram*), 328; Voluntary support of U. S. medical schools originating from physicians and from the National Fund for Medical Education (*Datagram*), 90

Impact of new drug regulations on teaching and research in, Kirby, 355

Improving the quality of libraries in, Esterquest, 451

Increased medical student attrition rate (*Editorial*), Penrod, 85

Independence or dependence, Deitrick, 1

Libraries: Improving quality of, Esterquest, 451; For infectious disease teaching aids, Martin, 374; Role of, in learning to learn clinical medicine, West, 910

Marital status and performance in, LeFevre and Goolishian, 377

Negro students in: Raup and Williams, 444; (*Communication*), Marston, 796

Personality factors influencing achievement in, Beiser and Allender, 175

Programs in development 1963-1964 (*Datagram*), 810

Reducing time span for physician education (*Editorial*), Perera, 504; (*Editorial*), Cooper, 505

Regional meetings of National Institutes of Health and, 556

Research animal farm for, Harrell, 459

Responsibility for public relations in, Davis, 470

Role of the dean (*Editorial*), Cooper, 81

School of psychological medicine within framework of university and, Kubie, 476

Significance of epidemiology in, Langmuir (Sept. Part II), 39

Steady progress abroad (*Editorial*), Hyde, 319
Student study cubicles, Harrell, 32

Medical Schools by Name:

Africa:
Nigeria: Lagos, 325, 794; Ibadan, 325, 794

Asia:
Indonesia: Airlangga, 755
Japan: Kyoto, 360; Keio, 360; Kobe, 360; Nara, 360; Tokyo, 360

Canada: Alberta, 881; McGill, 985; Toronto, 860, (Sept. Part II) 63

England: Birmingham, 388; Cambridge, 388, 805; London, 388, 794; Manchester, 388; St. Bartholomew's, 388; University College, 388

Russia: First Moscow Medical Institute, 1069

Scotland: Edinburgh, 545

U.S.A.: Albany, 97; Boston, 510; California (L.A.), 346, 1042; California (S.F.), 112, 597, (Nov. Part II) 61; University of Chicago, 97, 437, 522, 886, 953, 985, (Sept. Part II) 39; Cincinnati, 797, 798; Colorado, 97, (Sept. Part II) 39; Columbia, 147, 397, 437, 451, 510, 1030, 1050, (Sept. Part II) 32, 39; Cornell, 97, 147, 481, 1030, (Sept. Part II) 32; Dartmouth, 346, 769, (Nov. Part II) 32; Duke, 147, 510; Albert Einstein, 147, 510, 828, 846, 880; Emory, (Sept. Part II) 1, 2, 3; Florida, 32, 459, 828, 846, 1020; Medical Colleges of Georgia, 896; Harvard, 147, 437, 451, 470, 510, 828, 846, 985, 1020, 1030; Johns Hopkins, 147, 510, 1020, (Sept. Part II) 39; Illinois, 97, 120, 289, 346, 887, (Nov. Part II) 182; Jefferson, 470; Kansas, 97, 132, 622, 780, 893; Kentucky, 843, 1020; Maryland, 97, 382, 510, 613; Miami, 23, 647; Michigan, 50, 346, 797, 798, 889, (Nov. Part II) 59; Minnesota, 1020; Mississippi, 470, 796; Missouri, 346; Nebraska, 86, 888; New Mexico, 810; SUNY (Brooklyn), 510; SUNY (Buffalo), 510; SUNY (Syracuse), 437, 613; New York Medical College, 1020; New York University, 147, 510; North Carolina, 147, 1020; Northwestern, 828, (Nov. Part II) 182; Ohio State, 100, 613, 785, 967; Oklahoma, 40, 58; Oregon, 470, 877, 891; Pennsylvania, 50, 97, 510, 797, 985; Pittsburgh, 527, 611, 890; Rochester, 97, 147, 510, 794, 880, 895, 1020, (Sept. Part II) 60, (Nov. Part II) 30; Seton Hall, 755, 888; South Dakota, 447, 1051; Southern California, 97, 140, 522, 828, 846, (Sept. Part II) 82; Stanford, 65, 828, 846, 1020, (Sept. Part II) 83; Temple, 510, 878, 1020; Tennessee, 437, 899; Texas (Dallas), 289, 437; Texas (Galveston), 377; Tufts, 887; Tulane, 470, 828, (Sept. Part II) 63; Utah, 470; Vanderbilt, 470; Medical College of Virginia, 97, 704, 1051; Washington (St. Louis), 985, (Nov. Part II) 151; Washington (Seattle), 346, 451, (Nov. Part II) 57; Wayne State, 526; Western Reserve, 97, 147, 183, 289, 704, 769, 799, 820, 828, 843, 846, 1020; West Virginia, 1051; Wisconsin, 377, 1051; Yale, 289; 437, 451, 510, 985, 1020

Medical Students:

Appraisal of pediatric learning by, Turner and Robertson, 785

Attitudes: Changes in, toward mental illness (*Abstract*), Goldstein and Salzman, 882; Foundations (*Abstract*), Hoffmann, 876; Student and faculty, concerning the introduction of multiple-choice examinations in French medical schools (*Abstract*), Guilbert, 897; Toward clinical experience and clinical responsibility, Caughey, 429; Toward four medical specialties, Bruhn and Parsons, 40; Toward a programmed course (*Abstract*), Zachert and Wilds, 896; Toward their State University (*Abstract*), Cotsonas *et al.*, 887

Attrition rate of (*Editorial*), Penrod, 85

Characteristics: Academic success, intelligence and personality (*Abstract*), Lief *et al.*, 883; Biographical, differentiated according to a measure of intellectual disposition (*Communication*), Horowitz, 799; Biographical and other measures of preparation for self-education, Horowitz and Williams, 183; Personality factors influencing medical school achievement, Beiser and Allender, 175; Values orientation (*Abstract*), Mensh and Johnson, 875; Who chooses independent learning? (*Abstract*), Graves *et al.*, 895

Comparison of learning attitudes of, Graves *et al.*, 100

The Davis Reading Test, Hr scale, MCAT and undergraduate grades as predictors of success in medical school (*Abstract*), McGuire and Scott, 886

And faculty perceptions of medical roles, Korman *et al.*, 197

Group psychotherapy as technique for teaching psychiatry to, Mendel *et al.*, 497

Indonesian, and their relation to modern medical education, Opdyke, 755

Measurement problem for medical students (*Abstract*), Hoffmann, 877

Negro, in medical schools: Raup and Williams, 444; (*Communication*), Marston, 796

Pathways to diagnosis (*Abstract*), Weitman and Coisman, 891

Performance: Clinical performance and related traits of faculty physicians and, Liske *et al.*, 69; Seminar versus lecture, and prediction of, Netsky *et al.*, 112; Factor-analytic study of criteria of accomplishment, Schumacher, 192; Experimental studies of problem solving, Fattu, 212; Evaluation of, Miller, 289; Marital Status and, LeFevre and Goolishian, 377; Evaluation of, Gough *et al*, 679; Use of a programmed patient as a technique for appraisal of, in clinical neurology (*Communication*) Barrows and Abrahamson, 802; Evaluation of skills in physical diagnosis (*Abstract*), Evans and Bybee, 898; On multiple-choice examinations in fundamental science and physiology in their fourth or fifth semester in Germany (*Abstract*), Kapuste, 896; Background data of significance to medical student (*Abstract*), Motto, 891; A critical comments approach to the rating of medical students' clinical performance (*Abstract*), Cowles, 890; A multidimensional study of the relationship between academic performance and performance as a practicing physician (*Abstract*), Price *et al.*, 886; Evaluation of in a clinical psychiatric clerkship (*Abstract*), Vigliano and Gaitonde, 879

Predicting success of (*Abstract*), Hunka *et al.*, 881

Psychological problems of, Funkenstein, 82

Reducing time span for physician education (*Editorial*), Perera, 504; (*Editorial*), Cooper, 505

Selection of medical schools by (*Abstract*), Aronson *et al.*, 885

Selection of, in British Isles, Mensh, 388

Seminar for, in psychiatry as an occupational choice (*Abstract*), Miller and Wasserman, 878

Senior career choices in retrospect (*Abstract*), Boverman, 886

Student critique as a method of improving the departmental teaching program (*Abstract*), Judy and Lazaro, 883

Study cubicles for, Harrell, 32

Systematic use of feedback in teaching physiology to, Hall and Wenzel, 1101

Teaching to write, Zisowitz, 481

Teaching to teach, Seegal, 1030

Time study of activities of (*Abstract*), Fisher and Cotsonas, 892

Use of a teaching program in obstetrics for (*Abstract*), Campbell, 878

Use of seniors as evaluators, Drew, 843

Value of perceptiveness in (*Editorial*), Seegal, 321

Medicine:

The correlative laboratory as a method for the integrated teaching of, Rodin *et al.*, 540

Microbiology:

Role of, in teaching infectious disease: Summaries of small group discussions, National Conference on the Teaching of Infectious Disease (Sept. Part II), 57; Summary by group discussion chairmen, National Conference on the Teaching of Infectious Disease (Sept. Part II), 74

Survey of the current content of courses in, in U. S. Medical Schools (*Addendum*), Tager (Sept. Part II), 111

Pan American Federation of Associations of Medical Schools:

First meeting of the Council of, Cooper (*Editorial*), 959

Pediatrics:

Student appraisal of learning in, Turner and Robertson, 785

Physical Medicine and Rehabilitation:

Contemporary concepts in the teaching of, Kottke, 935

Physicians: See Medical Practice

Preventive Medicine:

See also Medical Education—Clinical Education

Role in teaching infectious disease: Summary of small group discussions, National Conference on the Teaching of Infectious Disease (Sept. Part II), 70; Summary by group discussion chairmen, National Conference on the Teaching of Infectious Disease (Sept. Part II), 92

Set theory as an aid to defining the role of a department of, Haynes (*Communication*), 961

Undergraduate training program in epidemiology, Entwisle and Henderson, 382

Psychiatry:

Behavioral science correlation clinic as a teaching device, Paredes, 58

Evaluation of student performance in a clinical psychiatric clerkship (*Abstract*), Vigliano and Gaitonde, 879

Exploratory seminar for Senior Medical Students in, as an occupational choice (*Abstract*), Miller and Wasserman, 878

Group psychotherapy as a technique for teaching of, to medical students, Mendel *et al.*, 497

Learning processes in psychiatry students (*Abstract*), Muslin *et al.*, 882

National Institute of Mental Health's general practitioner training program in, for Fiscal Years 1959-1962, Robertson and Shriver, 925

Possible predictors in training in (*Communication*), Cappon *et al.*, 860

Postgraduate education in, for the general practitioner (*Abstract*), Krush *et al.*, 888

Programmed instruction in basic psychopathology (*Communication*), Eaton *et al.*, 86

Residency selection plan in (*Communication*), Rosenbaum and Barchilon, 510

Seminars in, effect on attitude of participating non-psychiatric physicians (*Abstract*), Pearson *et al.*, 875

Some illnesses of mental health (*Alan Gregg Lecture*), Morison, 985

Supervised psychotherapy course for practicing physicians, Enelow *et al.*, 140

Teaching of: Impact of undergraduate program on choice of specialty, Simon and Shriver, 1114; And the humanities (*Communication*), Tidd, 1123

Type of internships for residents in, Rosenbaum, 774

Value of training in, during internship, Ellis, 815

Psychological Medicine:

School of, within framework of medical school and university, Kubie, 476

Survey of psychologists' activities in medical education (*Abstract*), Wagner and Stegman, 894

Public Health:

Study of foreign physicians who have received maternal and child health training in U. S. schools of, Wallace and Hunt, 531

Radiology:

Programmed instruction versus a textual presentation of, Cheris and Cheris, 311

Trends in the academic teaching of diagnostic radiology, Dowdy, 1042

Research:

See also Medical Education

Biomedical, role of in international development, McDermott, 655

Clinical investigation in medical residency training (*Abstract*), Martin and Jeghers, 888

The contemplative and the active (*Communication*), Mellinkoff and Field, 514

Federal funds, for research in hospital and health services, McGibony, 838

Impact of new drug regulations on, in medical schools, Kirby, 355

In medical education: Inquiry in (*Editorial*), Ham, 228; Proceedings of Second Annual Conference on, 100; (*Foreword*), Darley, 97; (*Editorial*), Sanazaro, 229; Program Committee, 99; Program, 639; Announcement of the Third Annual Conference on, 226; Program of the Third Annual Conference on, 873; Abstracts from the Third Annual Conference on, 875

Possibilities of, in diagnostic radiology, Dowdy, 1042

Proper use of, Ellis, 7

Research animal farm for a college of medicine, Harrell, 459

Seminar on Research in Patient Care (*Announcement*), 1048

World role of the United States in training for medical research, West, 237

Residents, Residency:

Clinical investigation as an integral feature of (*Abstract*), Martin and Jeghers, 888

Type of internships held, preferred, and recommended by psychiatric residents, Rosenbaum, 774

Selection plan for, in psychiatry (*Communication*), Rosenbaum and Barchilon, 510

Specialization:

Senior student career choices in retrospect (*Abstract*), Boverman, 886

Medical student attitudes toward four medical specialties, Bruhn and Parsons, 40

Statistics:

A teaching aid for biostatistics (*Abstract*), Koch and Kaplan, 875

Studies:

AAMC longitudinal study, Hutchins, 265

Comparative: Medical education in Japan, Bowers, 360; Programmed instruction and other teaching methods, Cheris, 304

Experimental, of problem solving, Fattu, 212

Factor-analytic, of criteria of medical student accomplishment, Schumacher, 192

Of applicants, 1963-64, Johnson, 899

Of biographical characteristics of medical students differentiated according to a measure of intellectual disposition (*Communication*), Horowitz, 799

Of the correlations of some relevant variables as possible predictors in the training of psychiatrists (*Communication*), Cappon *et al.*, 860

Of some differences between patients seen in practitioners' offices and those admitted to teaching hospitals (*Communication*), Greenhill and Watts, 1128

Of preparation for self-education in medical students, Horowitz and Williams, 183

Surgery:

Changes in the clerkship, Hume, 1090

Teaching and Learning:

Assessment of medical students' need for structure by means of the interview (*Abstract*), Motto, 894

Comparison of learning attitudes, Graves and Ingersoll, 100

Contemporary concepts in the teaching of physical medicine and rehabilitation, Kottke, 935

The doctor as teacher (*Editorial*), Perera, 1050

Effect of hospital educational seminars on attitudes of attending staff toward, White and Miller, 762

The emotional setting for learning in a State University (*Abstract*), Cotsonas *et al.*, 887

Enhancing the learning value of the lecture (*Abstract*), Zimmerman *et al.*, 884

Experimental studies of problem solving, Fattu, 212

Gain and retention of auscultatory skill after intensive instruction, McGuire *et al.*, 120

Independent learning (*Abstract*), Graves *et al.*, 895

Learning about learning, Dryer (Sept. Part II), 26

The learning process, Mosel, 485

Learning processes in psychiatry students (*Abstract*), Muslin *et al.*, 882

Learning theory and the teaching technologies, Ericksen, 298

Role of library in learning to learn clinical medicine, West, 910

Seminar versus lecture and prediction of performance by medical students, Netsky *et al.*, 112

Student appraisal of pediatric learning, Turner and Robertson, 785

Teaching medical students to teach, Seegal, 1030

Teaching Methods:

AAMC seminars on medical teaching (*Announcements*), 227, 422, 522

Behavioral science correlation clinic as teaching device, Paredes, 58

Bilingual postgraduate education for Cuban physicians, Taxay and Jones, 23

Communicable Disease Center's teaching resources, Martin (Sept. Part II), 32

Computer-aided teaching in medical diagnosis, Feurzeig, *et al.*, 746

Constructing and evaluating multiple-choice examination questions, Koch *et al.*, 712

Correlative laboratory as a method for the integrated teaching of medicine, Rodin *et al.*, 540

Exposure to child-parent interaction as a teaching device (*Abstract*), Marschak and Call, 879

Group psychotherapy as a technique for teaching psychiatry to medical students, Mendel *et al.*, 497

Home and hospital television viewing of continuing education broadcasts under three presentation-response conditions, Abbey *et al.*, 693

A lecture response device used in a coordinated teaching program in anatomy, Bridgman, 132

Life-size manikins for introductory teaching of physical diagnosis (*Abstract*), Peery *et al.*, 876

Man and His Environment—a new course of study at the Medical College of Virginia, Arrington and Hilkovitz, 704

Multidiscipline student laboratories at the University of Southern California School of Medicine, Lee and Bamberger, 846

Objective evaluation of the student dissertation, Hayes, 1083

Observations of undergraduate clinical teaching, Reichsman *et al.*, 147

Programmed Instruction: In basic psychopathology (*Communication*), Eaton *et al.*, 86; Compared with other teaching methods, Cheris, 304; Experiment in the development of, in medical education (*Abstract*), Rondell *et al.*, 889; For medical education, Allender, 346; In medical education, Lysaught *et al.*, 769; Student attitudes toward (*Abstract*), Zachert and Wilds, 896; To teach interpersonal relationship skills (*Abstract*), Quan, 877; Use of a teaching program for medical students in obstetrics (*Abstract*), Campbell, 878; Versus a lecture presentation in radiation protection, Elder *et al.*, 1078; Versus a textual presentation of radiology, Cheris and Cheris, 311

Proposed infectious disease teaching aid library, Martin, 374

Study of the objectivity of essay examinations, Abrahamson, 65

Study of teaching in a clinical clerkship, Adams *et al.*, 164

A teaching aid for biostatistics (*Abstract*), Koch and Kaplan, 875

Teaching medical students and physicians to write, Zisowitz, 481

Television: Continuation medical education by, McGuinness *et al.*, 735; Growing pains of, as a new teaching medium, Ramey, 1107; Home and hospital television viewing of continuing education broadcasts under three presentation-response conditions, Abbey *et al.*, 693; Use for laboratory experiments in physiology, Samson *et al.*, 780; Use of during the clinical years (*Abstract*), McDermott and Harrison, 889

Use of immediate feedback in teaching physiology, Hall and Wenzel, 1101

Use of a programmed patient to appraise student performance in clinical neurology (*Communication*), Barrows and Abrahamson, 802

Universities:

Administration of teaching hospitals affiliated with, Clark and Sheps, 527

Evolution of medical, Stead, 368

The FDA and the academic community (*Editorial*), Cooper, 407

Form of teaching hospital in, Harrell, 1005

Founding of first university hospital (*Communication*), Voss, 797

Organization of, and the professional school, Wallis (Nov. Part II), 21

Responsibility in, Wolfle (Nov. Part II), 7

Schools of psychological medicine within framework of medical schools and, Kubie, 476
